

Sinclair Broadcast Group is possibly the very worst of many, many ultra-right wing extremists who dominate the broadcast media today. On radio and TV they lie, decieve, dissemble, and propagandize.

I remember when V-P Spiro Agnew started lying about the 'liberals' controlling the news media -- I was a CONSERVATIVE REPUBLICAN until 1974, but I knew AGNEW WAS LYING THROUGHT HIS TEETH !!!

The USA was very, very, VERY much better-informed and FREER before the huge communication conglomerates took control of everything.

It is essential to the liberty of our country to reduce the power of the propagandistic media monoliths. The old limits on media ownership served the public interest so much better...even in music, let alone politics.

Thank you.
